From the Director

Let’s meet! This is the goal of TigerView, to bring to the University of Missouri campus some of the best and brightest prospective students who are interested in embarking on a journey of discovery and growth through a graduate degree program.

Mizzou has 149 degree programs for you to choose from. We also have more than 60 graduate student organizations, and over 70 research, centers, institutes, and core facilities to support your graduate education.

The MU Graduate School strongly believes in a holistic approach to graduate education. One way we support this is through gradESSENTIALS, a professional development framework that provides students with comprehensive in-person and online resources, with priorities to assist with goal setting, skill building, leadership development, and career preparedness.

Our faculty is committed to supporting diverse ideas and perspectives and disciplinary and interdisciplinary work. In addition, our campus community does not shy away from challenges and change.

Our graduate students are involved in teaching, research, service, community engagement, and professional development; taking advantage of all Mizzou has to offer to create the pathway for their future. Our hope is that you will be one of those students.

TigerView provides you with two days of learning and exploration. It is an opportunity for us to know more about you and for you to know more about Mizzou. I believe that is the only way to make an informed decision about your graduate education.

I look forward to meeting you in the Fall!
Raquel A. Arouca
Preparation to pursue an Advanced Degree

TigerView is more than a visit, it is preparation for your graduate school application

What can TigerView do for you? The program is designed to prepare you to apply to any graduate school and to explore all that Mizzou has to offer. The program will provide:

- Information about the opportunities for research and academic growth available to students at MU, a leading research university;
- Network opportunities with current faculty, administrators, graduate students and contacts in your program of interest;
- Information about the admissions process and funding sources to support graduate education;
- Social activities, tours, program visits, presentations, and workshops about the essential components of your future graduate admissions packet.

TigerView is an initiative to promote diversity and inclusion in graduate education.

I loved the program! It was very informative; not only for understanding the abundant opportunities Mizzou offers but also how to make educated decisions about all graduate programs. There were a lot of opportunities to meet faculty and staff at Mizzou. Everyone I came into contact with was eager to help all individuals. I am looking forward to completing the application for Mizzou graduate school!

– 2018 TigerView Participant

WHO CAN APPLY?

Eligibility and Program

Who we are looking for and how the program works

Are you interested in Graduate School? Are you interested in Mizzou?

We are looking for:

• U.S. citizens or permanent residents attending or who have recently graduated from a U.S. college or university
• Members of racial or ethnic groups that are underrepresented in graduate education (Black/African American, American Indian, Alaska Native, Hispanic/LatinX, or Native Pacific Islander) and/or first generation college students, including those who participated in a Ronald E. McNair Post-Baccalaureate Achievement Program or Student Support Services Program, are strongly encouraged to apply
• Students who have a genuine interest in a graduate degree and plan to enter a master’s or doctoral degree program the spring or fall semester following the TigerView program (i.e., rising seniors, master’s students, or individuals not currently enrolled who have already earned a bachelor’s or master’s degree)
• Strong academic record
• Interest in one of MU’s graduate programs

Program

2019 TigerView will be **September 30 and October 1**, which means participants will be traveling to Columbia, MO on September 29 and returning home October 2, 2019. During the visit, you will

• Participate in workshops
• Meet with faculty, staff, and graduate students
• Tour facilities
• Dine at different restaurants around town.

All costs associated with official events of the visit are paid by the Center for Inclusive Excellence in Graduate Education, including transportation, accommodations, and meals.

Space is limited, so apply early

Have fun
Online applications are open April 1 to June 21, 2019. Applications are due June 21, 2019 at 5 p.m. Central Daylight Time. You will need:

1. Apply online at https://applygrad.missouri.edu/apply/?sr=a1af4139-d3b2-42a2-8985-1b1abc7727bc
2. At least one recommendation letter from a faculty member, addressing your qualifications for graduate education to an NU Graduate Program (Deadline June 24, 2019 at 5 p.m. Central Daylight Time)
3. Upload
   a. Official or unofficial Academic Transcript (unofficial is fine).
   b. A statement of intent: Please describe in 750 words or less what makes you a strong candidate for graduate study in your area of interest, including: your academic and career goals; how your academic and/or research experiences have prepared you for graduate study; and your graduate degree area of interest. You must include a brief diversity statement in this document. The brief diversity statement should include past experiences and activities that help(ed) shape your understanding of diversity and inclusion.
   c. Resumé or C.V.

Applications will be forwarded to the program(s) of interest for review and recommendation for an invitation to a campus visit. Acceptance to TigerView is not acceptance to a graduate degree program at MU. A separate application is be required for that.

Contact MUGradCIE@missouri.edu if you have any questions.
