

RESOLUTION TO CATALOG RESEARCH METHODS COURSES

WHEREAS, the core of any Graduate education program is the formation of students in the ways and means of scientific or critical inquiry, and the conduct of research; and

WHEREAS, this requires that students across disciplines can access a broad range of coursework and opportunities for mentorship and education from experts in diverse methodological and philosophical perspectives;

WHEREAS, research methods courses provide fertile ground for fostering interdisciplinary teaching, learning and collaboration at the University of Missouri,

BE IT RESOLVED that the University of Missouri Graduate Faculty Senate supports the development of a means to periodically catalog and disseminate the content of research methods courses across campus.
