Pivot is a searchable database of funding opportunities that also helps identify potential collaborators. You can also create alerts based on keywords and areas of interest.

Presentations/Workshops

- **Creating a Culture of Support for All Faculty**
  - There is increasing awareness about the change in the professoriate from being largely tenure track (30%) to non-tenure track-NTTF (70%). What leaders and tenure track faculty are often less aware of is the way that NTTF positions have been constructed so it makes it very difficult for them to perform their roles as teachers, researchers, or clinical/administrative roles. In the session, Dr. Kezar will focus on ways NTTF roles can be enhanced through support that allow them to Optimally perform to their potential through appropriate orientation, mentoring, professional development, evaluation, involvement in shared governance, and other important processes.
  - The University of Missouri is an institutional member of the National Center for Faculty Development & Diversity (NCFDD), and as such you get a free account. If you have not registered with NCFDD yet, click here to register.
