Updates were presented by Dr. Lissa Behm-Morawitz

-SEC Emerging Scholars workshop is this week.

-Annual summit for DGS faculty and contacts was held earlier this month.

-Change to tuition support will be effective starting Fall 2023. Currently peer institutions do not offer any tuition waiver for .25 teaching and research assistants. University of Missouri is moving to change the waivers given to both .25 and .50 assistantships. For .25 assistantships they will be offered a 50% waiver and those on a .50 assistantship will receive a full tuition waiver.

Current students with assistantships will be grandfathered into the program. New policy will apply to students beginning in Fall 2023.

It was asked if the senate could receive some background to the new policy. Due to the absence of Dr. Hart, the conversation will continue in October.

Change in fellowship was also presented. New procedure will apply to fellowship students beginning in Fall 2023. Fellowships will be guaranteed for 4 years, to receive a 5th year of support a student will need to show their effort to apply for outside fellowships and grants.

Currently fellowships are paid for 5 years, new process encourages and supplies the students the ability to apply for other funding
